Udupi District, Karnataka, India

Professional Summary

Aspiring **Java Full Stack Developer** with strong knowledge of **Java, Spring Boot, ReactJS, SQL, and web development**. Skilled in building responsive web applications and integrating front-end with back-end systems. Passionate about problem-solving and eager to contribute to real-world software development projects.

Education

B.E – Computer Science and Business System 2021 – 2025
Canara Engineering College Bantwal (VTU) CGPA:7.66/10

Senior Secondary (12th) 2019 – 2021
Percentage:75%

Secondary School (10th) 2017 – 2019
Percentage:78.88%

Technical Skills

Programming Languages: Java, HTML, CSS, JavaScript, SQL
Frameworks / Libraries: ReactJS, Spring Boot, Bootstrap, Tailwind CSS
Backend Technologies: JDBC, Servlets, Hibernate, REST APIs
Database: MySQL
Tools & Platforms: Visual Studio Code, Eclipse IDE, Postman, Git, GitHub

Projects

Decentralized E-Voting System Using Blockchain
- Designed and implemented a secure and transparent voting system using blockchain technology.
- Developed smart contracts in Solidity for vote casting, tallying, and verification.
- Created a user interface for voters to register, cast their votes securely, and view election results.
- Integrated Metamask for secure user authentication and interaction with the blockchain.

Skin Lesion Detection
- Developed a skin lesion detection system using MobileNetV2 to classify images
- Implemented image upload, preprocessing, and automated lesion classification for accurate results.
- Provides fast diagnostic support for early skin cancer detection.

Internships

Java Full Stack Developer Intern - JSpiders Jun – Nov 2025
- Strengthened technical skills in Core Java, OOPs, SQL, and web technologies during hands-on training.
- Built mini-projects by integrating front-end interfaces with back-end databases using JDBC.
- Learned to write clean, optimized code following industry standards and best practices.

Full Stack Java Intern - SkillDzire Feb – May 2025
- Developed a web-based Student Management System using Java, JDBC, and MySQL
- Designed a simple, user-friendly interface for managing student records efficiently.
- Gained hands-on experience in integrating UI, business logic, and database layers.

Courses And Certifications

- Full Stack Java Certification - SkillDzire
- Java Full Stack Certification - JSpiders
- HTML, CSS, and Javascript for Web Developers - Coursera
